-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This Office action is in response to Applicant's amendments and remarks of 4/23/09. The previous rejection under 35 U.S.C. 112 <sup>2nd</sup> has been withdrawn.

Claims 9-23 are presently pending.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, all the claimed subject matter must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 9-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Over and above the absence of sufficient drawings showing all of the claimed subject matter, Applicant has not provided a specification containing a written description, and manner or process of making in such full, clear and concise terms so as to enable any person skilled in the art **to make an use same**.

Instead, Applicant appears to have merely provided a few background prior art patent references and a wishful framework of intended use of several well known concepts, instead of providing a substantive disclosure with clear enablement for the claimed invention including the types and values of the numerous operating parameters needed for even a single claimed subsystem, much less a coherent disclosure of the manner and mode of interaction of the plural subsystems involved needed for an operable automatic safe flight system.

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDWARD PIPALA whose telephone number is (571) 272-1360. The examiner can normally be reached on M-F 9:30 - 6.
